

Certification of
**CONCRETE FIELD TECHNICIAN
GRADE I**

The Concrete Field Technician Grade I exam is a nationally recognized test for all members of the Concrete Construction Community. Successful completion of both a written and performance examination entitles the applicant to certification by the American Concrete Institute as a Concrete Field Technician, Grade I. The San Diego International Chapter Sponsoring Group provides, for those pre-registered applicants, a three session training course. The course reviews concrete basics, test techniques, and provides the applicant with hands on training. Members of the San Diego International Chapter of the American Concrete Institute teach the course. Facilities for this course are donated.

The three sessions will meet prior to test on:

Wednesday	6:00 PM to 10:00 PM
Saturday	6:00 AM to 1:00 PM
Wednesday	6:00 PM to 10:00 PM

Test Day will be on: Saturday 6:00 AM to 1:00 PM

Test times are pre-scheduled and late applicants may not be admitted.

The cost is \$375.00 for non San Diego International Chapter of American Concrete Institute members and \$350.00 for current members. The cost includes only the test materials. Registered applicants that attend the three session training course will receive a course study book, and a one-year membership to the San Diego International Chapter of American Concrete Institute.
